1. Where did you live before MDS, and what is one thing you miss about it?

Jared: I lived in Vancouver before MDS, so don't have much to miss. **Ethan:** I lived in Starkville, MS for the past five years and the few things I missed about it are my friends and the short commuting trip. **Hans:** I was in China and I miss the dim sum breakfast a lot. **Rshan:** I was living in Addis Ababa, Ethiopia, and I miss Enjera my favorite food.

2. What did you do before MDS: a degree, a job, or both?

Jared: I was working a job before MDS. **Ethan:** I completed a master degree at University of Illinois and worked at Mississippi State University as a GIS Developer for five years. **Hans:** I was doing undergraduate studies on Math and statistics. **Rshan:** I was doing as a graduate management trainee in Safaricom.

3. What made you apply to MDS?

Jared: I wanted to formalize my education. **Ethan:** I would like to embrace the convergence of AI and become more competitive in the current job market. **Hans:** Job seeking and master studies. **Rshan:** I really like data insights.

4. What is one thing you want to be able to do by the end of the program?

Jared: I want to be able to take any data set and make it usable. **Ethan:** I would like to be capable of utilizing the latest AI tools and build my own AI models. **Hans:** Finish and understand the entire DA pipeline, work on research projects on my own. **Rshan:** I want to be a professional data science.

The screenshot shows a Jupyter Notebook with a file named 'index.qmd' open. The notebook contains a series of questions and answers from two individuals, Rshan and Jared, discussing their backgrounds and reasons for applying to MDS. The interface includes a top bar with 'index.qmd' and 'MERGE_MSG', a 'Preview' button, and a 'Render on Save' checkbox. On the right side, there are tabs for 'SESSION', 'VARIABLES', and 'PLOTS'. The bottom of the notebook has a toolbar with icons for 'CONSOLE', 'TERMINAL', 'PROBLEMS', 'OUTPUT', 'PORTS', and 'DEBUG CONSOLE'.
